## **MODULAR WARDROBES**

*Wardrobe reflects your personality and makes you more managed.*

\* **HINGER** : This is the traditional style of wardrobes. This is most recommended by almost all customers. Openable shutter wardrobes are usually giving more space and have more storage option to organize your stuff well. We have a large range, colors, finishes and designs for your Hinger wardrobes and these wardrobes are designed and made with quality material.

\* **SLIDER** : Sliding door wardrobes are generally used in place with less operative space. Or where a hinger cannot be managed, we offer the sliding door with the same features of the openable shutter. The Sliding Door Wardrobes can be mounted with wall and this wardrobe can be designed with two, three or four doors as it occupies less space. This enables more free space in the room.

# SPLITZER

\* **WALKSET:** Walk in closet is a luxurious choice and this type of wardrobes suits those who love collecting different clothes and accessories and have a really good fashion sense they love to explore their fashion accessories over and over again and love to walk in through.
